no maintenance

What if you could source beautiful roof towers and domes that need little to no maintenance? Safe and preferred on-site. Installed without the need for specialist trades. If you could ensure ISO standards, too... you'd keep everyone happy, finally.

StormKing GRP roof towers and domes are easily modified to suit your architectural design - incorporating clocks, ventilators or decorative faces. Proper structural support and ventilation are complimented by perfect aesthetics, meaning stylish yet practical solutions for your project.

- /// Lightweight for short and long-term safety
- /// Dry fit installation eliminating any wet trades
- /// Cost-effective alternative to traditional methods
- /// Durable and no maintenance features
- /// No need for specialist trades to fit
- /// Any design detail incorporated to meet planning requirements
- /// Dynamic GRP technology for perfect recreation of traditional materials
- /// Perfect for high strength to weight requirements
- /// Greater design flexibility that is repeatable in volume

Engineered for simple one lift installation

Includes all structural framework for easy on site assembly and fixing.

Inspired by the latest technology

Investment into development, technology and people enable us to create the dynamic detailing found on the surface of natural materials.

ROOF domes and towers

deliver consistently perfect aesthetics.

Modern factory with highly skilled technicians and cutting-edge fabrication. Including over half a million square feet of manufacturing capacity.

Regional support and on-site training

Technical Advisors are on-hand for friendly support that doesn't end once you've signed the cheque. Our people can be on-site within 48 hours, to train your team in correct product installation (for speed, safety and waste reduction). From specification and ordering to installation and beyond, you're welcome to draw on our specialist experience and **in-house architects**.

Production capacity and tracked delivery

No matter how big or small your order, we have the capacity to produce the volume you need, to ISO standards. Ensuring that products are delivered to your building schedule is paramount, and our fleet of tracked-vehicles are primed to meet your exact delivery requirements.

Doing the right things and doing things right:

- ISO 14001 Environmental Management Systems
- ISO 9001 Management Systems
- 0.71 Eco-points per ton
- Sustainability – We only purchase timber from suppliers registered to a recognised FSC/PEFC scheme
